

Saptarshi Ghosh

ASSOCIATE SOFTWARE ENGINEER / AI & ML / CREATIVE DESIGN

Kolkata, West Bengal, India | +91 6296770327 | saptarshi0777@gmail.com
github.com/eliot-99 | LinkedIn: [saptarshi-ghosh-rana](#)

Software engineer and 2026 B.Tech CSE (AI/ML) graduate from UEM Kolkata. I work across frontend web development, AI/ML applications and graphic design, combining technical practice with visual storytelling. Vice Chancellor's Award recipient and former Lead Designer for Ureckon fest.

PROFESSIONAL EXPERIENCE

Associate Software Engineer - Nexaric

Sep 2026 - Present

Currently working as an Associate Software Engineer, following a three-month frontend web development internship with Nexaric.

Frontend Web Developer Intern - Nexaric

Jun - Aug 2026

Three-month internship

Worked with React.js, TypeScript, Node.js, Tailwind CSS and AI tools for frontend web development.

EDUCATION

B.Tech in CSE (Artificial Intelligence & Machine Learning)

2022 - 2026

University of Engineering and Management, Kolkata

Graduated in 2026. **CGPA: 8.50 / 10.**

Higher Secondary (WBCHSE) - Science

2022

Hoomgarh Chandabila High School, West Bengal

Physics, Chemistry and Mathematics. **89%.**

Secondary Education (WBBSE)

2020

Hoomgarh Chandabila High School, West Bengal

80%.

TECHNICAL & CREATIVE SKILLS

Frontend & web: React.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, Flask, WebSockets, PWA

Programming & data: Python, Java, C, SQL, MySQL, MongoDB, Node.js, NumPy, Pandas

AI & machine learning: TensorFlow, Keras, Scikit-learn, OpenCV, AI tools

Visualization: Matplotlib, Seaborn

Tools & systems: Git, GitHub, Linux, Docker, n8n automation, Arduino, Raspberry Pi

Design: Adobe Photoshop, Illustrator, Figma, Premiere Pro

Fundamentals: Object-oriented programming, Operating Systems, Database Management Systems

Selected work & recognition

Personal projects across computer vision, AI, data science and the web.

PROJECTS

PPE Detection for Construction Site Safety

YOLOv8 / Python / PyTorch / OpenCV | [Repository](#)

Developed a computer vision system to detect personal protective equipment on construction sites. Implemented training and inference pipelines for real-time helmet and vest detection; prototype testing explored a potential 20% accident reduction in simulated environments.

LinkedAI - AI Post Creation Platform

Flask / Python / HTML / CSS / JavaScript | [Repository](#)

Built a web-based platform for image annotation and machine learning model training, streamlining dataset preparation for computer vision. The interface enabled over 50 users to annotate images during initial testing.

Plant Disease Detection Using CNN

TensorFlow / Keras / Python / CNN | [Repository](#)

Designed a CNN-based system to detect plant diseases from leaf images for early agricultural diagnosis. Trained and deployed a prototype classifier for multiple disease categories.

DataScope - AI-Powered Data Analysis Platform

Flask / Python / Google Gemini AI | [Repository](#)

Built a web application for statistical analysis, visualizations, automated data-quality assessment, AI insights and machine learning readiness recommendations.

AI Quiz Hub - Intelligent Quiz Platform

Next.js / TypeScript / Llama AI / Vanta.js | [Repository](#)

Created an AI-powered quiz platform with English, Hindi and Bengali support, 3D backgrounds, audio and analytics. Generates 50-question quizzes with Meta's Llama 3.1 70B model through OpenRouter.

Interactive Portfolio Website

HTML5 / CSS3 / JavaScript / Responsive Design | [Repository](#)

Designed and developed a responsive portfolio with animations, interactive elements and mobile navigation, showcasing software projects, design and photography.

ACHIEVEMENTS

Vice Chancellor's Award - UEM Kolkata (2024) | [Certificate](#)

1st Position, Ray Imagine Poster Design Competition (2024) | [Certificate](#)

Lead Designer, Ureckon techno-management fest, UEM Kolkata (2023-2024). Managed creative direction and the design team.

CERTIFICATIONS

Machine Learning & Data Science - GeeksforGeeks (2024)

Python for Data Science, AI & Development - IBM (2024)

Cloud Computing - LinkedIn Learning (2024)

Photoshop 2024 Essential Training - LinkedIn Learning (2024)

Interests: Photography, travelling and filmmaking.
